3-New test data

1st grade

Yellow line is proficient=3

The chart is a sample of the classrooms. The graph was intended to show the improvement of the students.

2nd grade

Yellow line is proficient=3

The chart shows all of the 2nd graders. The graph is intended to show the improvement of the students.

The data shows great improvement in our children's reading. Still not necessarily at proficiency but vast improvement.

Rate of learning = how fast the student learns. The improvement in kid's skills as measured by the tests.

4- SIP update

SLC should advise NMI Board on the completed SIP.
